Accommodation

Guests: 9
Cabins: 4
Crew: 3
Heads: 4

Capacities

Fresh water: 1 200 L
Black water: 360 L
Grey water: 500 L
Fuel: 6 000 L

LAYOUT

FLYBRIDGE

MAIN DECK

LOWER DECK

OVERVIEW

Nayla offers a seamless blend of indoor and outdoor spaces. The aft deck, protected by the flybridge overhead, features an alfresco dining area that extends the main deck salon. A sliding, foldable glass door allows the salon to merge with the exterior. Inside, the 35-square-meter main deck can be rearranged to create multiple living configurations.

The Nayla yacht's formal layout includes a connected living and dining area with a pantry, while the main galley is located on the intermediate level. Sliding doors and panels can separate guest and service areas, enhancing privacy. The main helm station, equipped with a well-designed dashboard, offers excellent comfort and visibility.

Nayla accommodates 9 guests across 4 staterooms, and a crew of up to 3. All staterooms in the Nayla feature luxurious materials, such as natural stones and hand-stitched leather. The two guest cabins, one with a pullman bed, have twin beds that can convert into double beds, each with ensuite heads. The VIP cabin, located forward, has an island bed, side wardrobes, and a private ensuite head. The full-beam owner stateroom, positioned at the center of the yacht, offers expansive views, a walk-in wardrobe, and a master head.

The yacht's flybridge boasts a generous 41.5 square meters of outdoor living space, protected by a carbon fiber hardtop with an opening sunroof. This area has a lounge, dining area, and open-air galley. The bow lounge area, featuring semicircular adjustable tables and seating, can transform into a private dining spot or sunbathing area.

Powered by twin MAN V12 1650 Hp, Nayla can reach a maximum speed of 31 knots.
